Executive Summary

I am a Junior Full Stack Software Developer with a diploma in Full-Stack Software Development (Advanced Frontend) from Code Institute. Currently, I work as a waterproofing specialist in the construction industry. My education at Code Institute has provided me with robust skills in Full Stack Development and proficiency in modern technologies. Participating in hackathons has sharpened my problem-solving abilities and enhanced my team collaboration skills. These experiences have enabled me to tackle real-world challenges, continually improve my coding proficiency, and contribute to innovative projects. With a passion for technology and a commitment to continuous learning, I am eager to transition into a Software Development career. I aim to join a dynamic team where I can contribute to impactful projects and further develop my expertise in Full Stack Development.
